

Real-time tracking information

Target release	1.0
Epic	<div> S3GP-7 - Tracking value driven telemetric parameters <div>TO DO</div></div>
Document status	<div>ACCEPTED</div>
Document owner	Jordi Huntjens
Designer	
Developers	Lead developer
QA	

Goals

- Visualize and add SLA constraints to temperature, pressure, and humidity data.

Background

Why are you doing this?

- A manager whites to be able to see the current temperature, pressure, and humidity.

Assumptions

- Users will primarily access this feature from a tablet or laptop.

Requirements

#	Title	User story	Importance	Notes
1	Show live asset temperature	As a manager, I want to be able to visualize the current asset temperature in real-time, so it can be monitored. <div> S3GP-26 <div>DONE</div></div>	Must	<ul style="list-style-type: none">Gua ge?
2	Show temperature history	As a manager, I want to be able to see the history of the asset temperature, so I can see what the temperature has been. <div> S3GP-27 <div>DONE</div></div>	Must	<ul style="list-style-type: none">In a line grap h?
3	Show live asset pressure	As a manager, I want to be able to visualize the current asset pressure in real-time, so it can be monitored. <div> S3GP-28 <div>DONE</div></div>	Must	<ul style="list-style-type: none">In a line grap h?
4	Show pressure history	As a manager, I want to be able to see the history of the asset pressure, so I can see what the pressure has been. <div> S3GP-29 <div>DONE</div></div>	Must	<ul style="list-style-type: none">In a line grap h?
5	Show live asset humidity	As a manager, I want to be able to visualize the current asset humidity in real-time, so it can be monitored. <div> S3GP-30 <div>DONE</div></div>	Must	<ul style="list-style-type: none">In a line grap h?
6	Show humidity history	As a manager, I want to be able to see the history of the asset humidity, so I can see what the humidity has been. <div> S3GP-34 <div>DONE</div></div>	Must	<ul style="list-style-type: none">In a line grap h?

User interaction and design

TBD

Questions

Questions	Resolution
Should we make measurement units configurable?	Yes
Should we export temperature, pressure, and humidity data?	Yes
Should we add battery life data?	Yes

Won't do

-
