Tracking all assets

|	
Target release	1.0
Epic	⚡ **S3GP-40** - Tracking all assets TO DO
Document status	CONCEPT
Document owner	Petar Mihaylov
Designer	Jordi Huntjens
Developers	*Maarten Jakobs*
QA	

Goals

- Provide the manager with a nice visualization of the location of the asset and its details.

Background

Why are you doing this?

- An operation manager wants to tackle all of the asset's information easily.

Assumptions

- We need to visualize it somehow on a map

Requirements

#	Title	User story	Importance	Notes
1	List of assets	As a manager, I want to be able to see a table with the details of the assets, so it can be chosen one.	Must	• We should list, search, and filter them.
2	Overview of an asset's parameters	As a manager, I want to be able to see an asset's overview of all value-driven parameters, so they can be monitored.	Must	• Modal or listed
3	Notification on breach an SLA constrain	As a manager, I want to be notified of a breach of SLA constrain, so that he can react properly on time.	Must	• Pop-up message
